COMPLETE COTTON CLEANER,

The Complete Cotton Cleaner, New, Valuable and Moneymaking Machine to every Cotton producer or ginner,—thoroughly removes all Dust, Diar, Sand and light Trash from cotton before ginning, and improves the quality of the lint from one to

No gin house should be without one of these "cleaners". It is light, simple, and easily adjusted to either Horse or Steam power, occasioning little or no increased draft, is readily understood, simple in operation, not liable to get out of order, and will pay for itself in less than ten days work.

Gentlemen—I have, during the past season, had in successful operation the "C. C." purchased of you. I am greatly pleased with it, and consider it an absolutely indispensable machine in every gin-house. All its claims have been fully sustained, and I think you have not, in the least, exaggerated its merits. It certainly takes all the dust and dirt out of cotton, leaving it in a beautiful condition for the work of the gins. Its most apparent benefit is, of course, upon the lower grades, but I believe it will very much enhance the quality of all cotton—the first as well as the last pickings. Yours, truly,

D. L. CHILDRESS.

CAMPBELL—On Tuesday, September 5th, N. W. Campbell, aged 39 years.

I have had the "Complete Cotton Cleaner," bought of you, in constant operation, and it works to perfection. Mine more than paid for itself it two weeks work.

I can gin and make a good sample of cotton from the pickings from the ground, as also that gathered with bolls. Cotton picked with ordinary care is improved one-fourth to one-ing, at one o'clock, by Rev. S. Landrum. The ing, at one o'clock, by Rev. S. Landrum. The cotton without trouble. I find that with cotton from the "C. C. C." my gin picks the lint of work up and gin camp cotton without trouble. I find that with cotton from the "C. C. C." my gin picks the lint of more readily and with less draft. Yours, etc.,
